ALZHEIMER'S ASSOCIATION 2003 MEMORY WALK OCTOBER 26, 2003 — RIVERSIDE PARK

Alzheimer's Disease is a progressive, degenerative disease of the brain. At this time, there is no known cure. Approximately 4 million Americans have this disease. Although many things about this disease remain a mystery, research enables us to have a better understanding of the disease. The disease will ultimately destroy the memories, the lives, and likely the savings, of each of its victims and will undoubtedly overwhelm our nation's healthcare system.

Proceeds from the annual Memory Walk are used to support a wide range of Alzheimer's-related programs and services for the families and caregivers living with ravages of the disease right here in New York.

Littman Krooks LLP is committed to supporting this cause. We invite all our employees, clients, families and friends to make a difference in the fight to end Alzheimer's by participating with us as a team in the 2003 Memory Walk. This year's Walk will take place on Sunday, October 26, 2003 at Riverside Park on West 83rd Street entrance. Please join us and help make a difference.

Please contact our office if you would like any additional information regarding this event.
